## **Public Questions and Statements**

### **Question submitted by Sarah Prinsloo**

During the election in May, I was very pleased to hear candidates agree on the importance of addressing the climate and ecological emergency (as stated during the Salisbury Transition City Debate in April). Yet two years after the City Council declaration on the climate emergency, little has been done to put any plan into action and there appears to be no sense of urgency in the current council agenda. I would therefore like to ask the councillors the following:

> 1. Will Salisbury Council sign up in support of the cross-party Climate and Ecological Emergency Bill? To date 103 councils have signed in support of this important bill:

> <https://drive.google.com/file/d/1eeo34sbxlsHtTnLxQm9ilm6kMqgez3ni/view>

> 2. Will Councillors commit to treating the climate emergency with the gravity it deserves; only approving new developments, bills, policies, plans or other activities if they can be demonstrated to make a positive contribution to ecological and climate targets (i.e. all development or activity must be able to demonstrate carbon neutrality by 2030 or even better reduce existing carbon emissions, as well as ensuring a net gain for biodiversity and ecological aspects)?

3. Will Councillors commit to a Peoples Assembly on transport and access options for Salisbury? I believe it was shocking to Salisbury residents to see the last council falling to find a reasonable way forward on this issue, and even worse; some councillors actively publicly campaigned against City and County Council approved schemes. Not only was there disagreement between councillors, but even within the majority Conservative party. This despite the CAF consultation showing that pedestrianisation and cycle-friendly schemes had the highest levels of public support. Salisbury Transition City have launched a petition in support of a Peoples Assembly, which I would request to read to the council. We expect to submit the completed petition to Salisbury Council by the end of September .

### **Statement submitted by Mark Potts**

A number of important decisions affecting the lives of Salisbury citizens have been made in recent years that many feel have been made without listening adequately to citizens opinions.

The new City Council has an opportunity to engage properly with the people of Salisbury on key issues affecting the city. Salisbury Democracy Alliance believes that this is best done through the establishment of a Citizens Jury.

### **Question submitted by Rick Page**

"The fact that we still have Street Litter Bins for general waste is symbolic of how little attention or care the council places in the need to protect our environment and to offer visible leadership to residents and visitors. Can you please confirm what urgent actions are being taken in conjunction with Hills to replace the SLB's in the City Centre with recycling options as is the case in the Cathedral Close?"

### **Councillor Question and Statements**

#### **Question submitted by Councillor Paul Sample**

"If the City Council will co-ordinate the local response, in the City of Salisbury, to the Afghan refugee situation?"
