Issue Details

Location of Issue:	Pavement immediately outside above address
Community Area:	Salisbury
Parish or Town Council:	Salisbury City Council
Nature of Issue:	
During periods of heavy rain, water collects on the pavement and flows down-hill in a northerly direction. Due to deterioration of the pavement surface, the water follows along the perimeter of the houses and down the driveway of the above address (earlier properties have raised curbs). This causes significant flooding around the outside of the house and garage. Photographs uploaded to Wiltshire Council reporting tool. Also available on request.	
How long has it been an issue?	Enduring. Known since ownership (April 24), but also reported by previous owners.
What would you like done to resolve this issue?	
Pavement, light, bollard, take out hedge, sign., speed bump., build out. Pavement requires re-surfacing to direct water flow onto the road. Also requires a drain to be installed at the entrance to the property driveway.	
Have you been in touch with your local Wiltshire Councillor? (Yes/No)	No

This form needs to be completed and e-mailed or sent to your local Town or Parish Council. Town and Parish contact details are available via the link below:
