

Highways Improvement Request Form

Issue Details

Location of Issue:	Exeter St Salisbury
Community Area:	Salisbury
Parish or Town Council:	Salisbury
Nature of Issue:	
<p>In November 2024 a pedestrian was killed after being hit by a driver on Exeter Street. In 1999, Salisbury implemented a 20mph in the city centre. The facts are that pedestrians are around five times more likely to be killed when hit by a vehicle travelling at 30mph than a vehicle travelling at 20mph.</p> <p>In 2002 the Salisbury Transportation Plan Joint Committee considered whether Exeter Street should be included in the 20mph speed limit zone to complete the coverage of the zone within the city centre ring road. However, this was never progressed.</p>	
How long has it been an issue?	since 1999
What would you like done to resolve this issue?	
The implementation of a 20mph zone on the entire length of Exeter Street.	
Have you been in touch with your local Wiltshire Councillor?	Yes
