13. **Notice of Motion – Wiltshire Council Parking Charges Consultation:**

To hear a Notice of Motion from Councillor Tom Corbin.

Salisbury City Council recognises the importance of bus subsidies in giving communities an essential lifeline and for Salisbury it also provides increased day visits to local businesses. The Wiltshire Council approach to threaten bus subsidies in relation to car parking and residents' permit charges is not welcomed by this council. [Option 1]

Wiltshire Council claims to have not applied an inflation increase to its car parking charges since 2011. However it has introduced in the last two years lots of new car parking charges across Wiltshire, many in car parks that were formerly free parking. Users of Salisbury's car parks already have to pay substantially more than elsewhere in Wiltshire and therefore any percentage increase discriminates against regular users of Salisbury's car parks as the overall financial impact is disproportionate. Any above inflation increases to car parking charges would not be acceptable to this Council. As the proposed car parking charges are based on future CPI projections over 5 years, the proposed parking charges should not come into force before December 2020. [Option 1]

The 50% Proposal to base season ticket prices is acceptable if based on the sum [all day charge X 5 days a week X 46.75 Weeks a year divided by 2]. The 85% discount figure claimed currently is a misnomer even if a car park user was assumed to park in the City every single day of the year the discount would be only 63%. This is not reflective of those coming into the City to work. [Option 5] Reduction of the grace period from 15 minutes to 10 minutes will not make any significant impact to the car park turnover rate and is not in the spirit for why the 15 minute parking grace was introduced. Any increased income will be of insignificant overall value. [Option 7]

The withdrawal of free event parking, having only recently been reintroduced would be rightly viewed with scepticism by the local community and would reduce the local offer that can be put in place for special community events. [Option 4]

This council is appalled at the proposed massive hike in residents parking permits, many residents face a 350% increase on their annual parking permit charge, with additional higher costs for additional vehicles. Residents' Parking

Permits have never before been used to generate additional income to Wiltshire Council. The harmonisation of residents' parking permits should be at cost to run the parking permit service and to contribute toward the enforcement of the respective areas. Any above inflation increases to Salisbury residents' permit charges would not be acceptable to this Council unless Wiltshire Council can clearly demonstrate any charges that are levied above inflation will provide positive improvements to residents' parking issues in these areas. [Option 6] Option 1 – Bus subsidy cuts or Projected CPI inflation increase over 5 years. Option 2 – All car parks Sunday and Bank Holiday charges. Option 3 – Start charging in free car parks. Option 4 – Free event parking. Option 5 – Base season ticket prices on the standard rate charges. Option 6 – Harmonise residents parking permit charges. Option 7 – Reduce the period of time of parking grace from 15 minutes to 10 minutes. Option 8 – Alternative ways to fund from the local community.
